**Incident Log**

1. On 1 November, I had my staff initiate an informal log recording all reported attacks by fire against population centers in South Vietnam. It was this log that the Director took with him to the White House meeting on 7 November.

2. In response to General Taylor's request, I am sending you the attached copy of our log for passage to him. Although we do everything possible to ensure its accuracy, this is an informal in-house working document and should be read accordingly. Once we have an experience factor to work with, we will try to draw rather more precise distinctions between various types of attacks and various types of targets.
